CONGRESSMAN ANDER CRENSHAW

REPRESENTING FLORIDA'S 4TH DISTRICT

"President Bush is taking action at home and abroad to defend the American people from the threat of terrorism. The President is also working with Congress to help America's economy grow and create jobs. These are the Nation's two highest priorities. We can and must do both."

– U.S. Representative Ander Crenshaw
April 15, 2003

THE ROAD TO ECONOMIC RECOVERY

Congressman Crenshaw: Working Hard for Working Families

In this session of Congress, I voted for:

- **H.R. 2, JOBS AND GROWTH TAX ACT OF 2003** - Promotes job creation and economic growth by encouraging small business investment. Allows consumers to make their own decisions on how to save, spend, or invest earnings. (Signed into law.)
- **H.R. 1308, THE ALL AMERICAN TAX RELIEF ACT** - Accelerates the phased-in aspect of the child tax credit refund, thus allowing more people to take advantage of the credit this year. (Signed into law.)
- **H.R. 8, DEATH TAX REPEAL PERMANENCY ACT OF 2003** - Makes the repeal of the death tax permanent. (House passed.)
- **H.R. 1528, TAXPAYER PROTECTION AND IRS ACCOUNTABILITY ACT OF 2003** - Assists taxpayers by reforming the penalty and interest sections of the Internal Revenue Code, provides safeguards against unfair IRS collection procedures, and increases confidentiality of taxpayer information. (House passed.)
- **H.R. 6, THE ENERGY POLICY ACT OF 2003** - The energy bill will prevent the loss of hundreds of thousands of jobs in the manufacturing sector and create nearly 1 million new jobs. (House passed.)

Congressman Ander Crenshaw WORKING FOR A STRONG ECONOMY

Dear Friend:

I have long believed the best way to grow the economy is to let people keep more of what they earn.

Tax relief lets families make their own decisions to spend, save, or invest their hard-earned dollars the best way they see fit. Further, tax relief creates jobs, personal wealth, and stimulates economic growth.

I came to Congress to lower the federal tax burden. Twice in my two terms in office I have supported significant tax relief packages that are now law. Tax relief is working. Third quarter Gross Domestic Product figures showed a 7.2 percent increase in economic activity in the country -- the fastest growth in nearly 20 years.

When Congress debated the Child Care Tax Credit, I stood firm on the principle that those who pay taxes ought to get the relief. The result: 1,432,000 Florida families received childcare tax rebates.

When Congress debated the Jobs and Growth Tax Act, I stood firm in my belief that our economy was in desperate need of relief from the burden of taxes. Under the relief exports are expanding, business investment is rising, housing construction is booming, and jobs are being created.

Just as our economy is coming around, some in Washington are saying now is the time to roll back the relief and raise taxes. I strongly disagree. A nation cannot tax its way to growth or job creation. Tax relief put this nation on the right path - a path of growth. I intend to keep America on the path to prosperity.
